Press Release

Larson & Bawden LLP Selected as One of The Leading Attorneys of California

Beverly Hills, CA, December 15, 2009: Larson & Bawden LLP today announced that it has been selected by Goldline Research as one of the leading Attorneys of California for 2009. This list of leading Attorneys of California is scheduled to be published in the December 28th issue of Forbes Magazine.

"We are pleased to be recognized not only for the quality of our legal work, but for the personalized service that we provide to our clients, both hallmarks of our practice," said Elizabeth A. Bawden, partner at Larson & Bawden LLP.

"There are more than 200,000 attorneys in the State of California. Quality and client service varies greatly in the industry, and, as a result, many consumers end up making a poor selection when choosing their legal professional. The attorneys and firms that we selected, however, provide extensive client service that exceeds the industry standard," said George Shaeffer, Analyst, Goldline

Research. "We believe that these attorneys and firms are setting the benchmarks for client service for the industry as a whole."
